

LATEST NEWS**COUNCIL HAS SUPPORTED OUR COMMUNITY AND DECIDED THERE WILL BE NO LARGE INDUSTRY IN CRANBOURNE WEST**

We have finally achieved our goal!

After a prolonged period of just over 3 years we have cleared a significant hurdle in the rezoning of the Cranbourne West land from Industrial to Residential.

On Tuesday 15th May 2017, the City of Casey voted to adopt the rezoning of the land from Industrial to Residential and Community Infrastructure in accordance with the recommendations of the Independent Panel appointed by the Minister for Planning to scrutinise the merits of the proposed rezoning.

On behalf of the Committee of SCWRAG, we sincerely want to thank you all for your patience, contribution and ongoing support.

Without the community's strong lobbying and support, the land would still be designated for large scale industrial development.

In summary, the Independent Panel concluded:

- There is sufficient medium to long term industrial land supply in the Southern region if the Amendment is approved.
- The approval of the Amendment would have only a minor impact on the supply of industrial land in the Southern region.
- The constraints on the land, particularly its proximity to residential land, will make it difficult to attract some industrial uses.
- The constraints on the land do not make it unsuitable for all forms of employment use.
- The Amendment land is suitable for residential development.

COMMUNITY INFORMATION DAY

A Community Information Day will be held on Saturday 9th June 2018 between 10am – 2pm at the Quarters Park on Central Park Boulevard in Cranbourne West.

On the day, you will be able to meet with the developers and discuss with them the community's vision for the new residential area in Cranbourne West and the parks and open spaces that will be delivered as part of the new Estate.

**There will be free activities for the kids and food stalls.
We look forward to seeing you there!**

We will very shortly be announcing a new community campaign to address the very dangerous road conditions in Hall Road and the Evans Road intersection.
